

# Testing 3 Phase Extension Leads with the TnT Portable Appliance Tester Range

## Equipment

## Instructions

1. Connect Alligator Lead into IEC Socket of your TnT Tester
2. Insert the metal pin into the Alligator Clip
3. Insert the 3 Phase Adapter 3 pin plug into the Appliance Socket of your TnT Tester
4. Connect the male plug of the Extension Lead to the 3 Phase Adapter
5. Insert the Metal Pin into the Earth socket of the female end of the Extension Lead as shown - take care to ensure you have the correct socket
6. Select Extension Lead Test from the Main Menu of the TnT Tester to begin the test
